## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claims 3, 10 and 16, line 1, the term "hereby" has been deleted.

The examiner's amendment was made to the above claims so that the status indicator of the canceled claims would conform to current practice.

## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: This application teaches a printing ink composition comprising a metal-complexed dye of the formula

$$(\mathbb{R}_{1}X_{2})_{2} = (\mathbb{R}_{2}X_{2})_{2}$$

$$(\mathbb{R}_{2}X_{2})_{2}$$

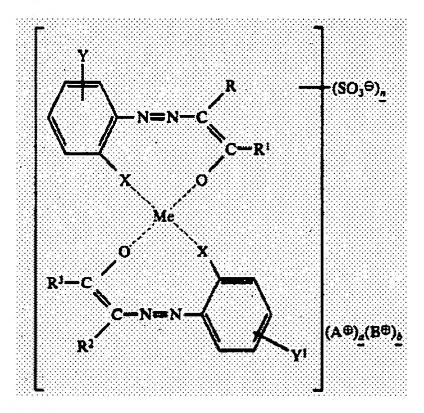

$$(\mathbb{R}_{2}X_{3})_{2} = (\mathbb{R}_{2}X_{2})_{2}$$

$$(\mathbb{R}_{2}X_{3})_{3} = (\mathbb{R}_{2}X_{3})_{4}$$

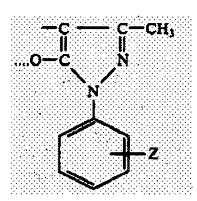

or salt thereof wherein M is copper;  $R_1$  and  $R_2$  each independently is a solubilizing group;  $R_3$  is selected from the groups consisting of alkyl, cyano, COOH and CONH<sub>2</sub>;  $X_1$ 

Art Unit: 1755

and  $X_2$  each independently is a counterion; Z is a ligand; n is an integer of from 1 to 3; m is an integer of from 1 to 3 and p is an integer of from 1 to 3; dissolved or dispersed in a liquid carrier. The closest prior art of record is U.S. Patent No. 4,045,424, issued to Tartter, which teaches a metal-complexed compound of the formula

wherein Me is cobalt or chromium; X is -COO-; Y is H; Y<sup>1</sup> is H; n is 1 or 2; R and R<sup>1</sup> and R<sup>2</sup> and R<sup>3</sup> together with the carbon atoms connecting them are of the formula

Art Unit: 1755

wherein Z is H and A and B are cations (i.e. counterions) but fails to teach or fairly suggest a metal-complexed compound wherein the metal is copper as claimed by applicants. Accordingly, this application is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helene Klemanski whose telephone number is (571) 272-1370. The examiner can normally be reached on Monday-Friday 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on (571) 272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
